

DARPIT H. MEHTA

AI/ML Engineer · Full Stack Developer · Python · LLMs · Generative AI · NLP

+91 9537083226 • mehtadarpit555@gmail.com • linkedin.com/in/darpitmehta • Vadodara, India • **Open to Opportunities**

PROFESSIONAL SUMMARY

AI/ML Engineer and Full Stack Developer with hands-on experience building intelligent, data-driven applications using Python, Large Language Models (LLMs), and modern web frameworks. Proven ability to automate complex workflows — reducing manual processing time by 40% and maintaining 99.8% data accuracy across 5,000+ records. Currently pursuing MCA at Parul University while actively shipping ML and full-stack projects. Trilingual (English, Hindi, Gujarati). Actively seeking full-time, internship, or contract roles in AI/ML Engineering, Generative AI, or Full Stack Development.

CORE TECHNICAL SKILLS

AI / ML: Machine Learning (Supervised & Unsupervised), Deep Learning, Neural Networks, NLP, Sentiment Analysis, Predictive Analytics

Generative AI: Large Language Models (LLMs), Prompt Engineering, Generative AI Frameworks, Text Classification

Languages: Python (primary), JavaScript / TypeScript, SQL, Bash / Shell, PL/SQL

Frontend: React.js, HTML5, CSS3, ASP.NET

Backend: Node.js, REST APIs, Database Management (MySQL, SQL)

Cloud & Tools: Google Cloud Platform (GCP), Git & Version Control, Visual Studio, Android Studio, Kali Linux

Data: Data Cleaning & Preprocessing, Statistical Analysis, Data Visualization

Soft Skills: Critical Problem-Solving, Cross-functional Collaboration, Technical Documentation, Project Delivery

PROFESSIONAL EXPERIENCE

Data Entry Operator | [HR Supply and Service](#)

Jun 2022 – Jun 2023

- Processed and managed 5,000+ employee records with 99.8% accuracy across multiple HR systems — zero compliance violations over 12 months
- Redesigned data entry workflows by identifying and eliminating process redundancies, cutting manual processing time by 40% and boosting team productivity by 35%
- Audited and validated sensitive employee data under strict confidentiality protocols, achieving 100% compliance with data protection regulations across all audits
- Collaborated with cross-functional HR teams to implement workflow automation, reducing end-to-end data processing cycles significantly

PROJECT PORTFOLIO

E-Commerce Platform with AI-Powered Recommendations

2024

- Built an intelligent product recommendation engine using ML-based classification and user preference analysis, improving platform functionality by 98%
- Implemented NLP-driven search to surface relevant products based on natural language queries, enhancing user experience with data-driven insights
- Designed and optimised the full database schema (SQL) and integrated backend APIs for seamless frontend-to-model communication

Tech: *Python, Machine Learning, SQL, HTML/CSS, React.js*

School Management System with Analytics Dashboard

2023 – 2024

- Designed and deployed a comprehensive desktop application improving administrative operational efficiency by 98% through automation of manual processes
- Built a live analytics module for student performance tracking, enabling data-driven decision-making for educators across departments
- Integrated an intuitive UI with role-based access controls and automated administrative features (attendance, records, reporting)

Tech: *Python, ASP.NET, SQL, Database Management*

AI/ML Data Processing Pipeline

In Development

- Building an end-to-end data pipeline in Python for ML model training, covering ingestion, cleaning, feature engineering, and model evaluation
- Implementing NLP algorithms for text analysis and multi-class classification on real-world datasets
- Developing automated data cleaning and preprocessing workflows to reduce data preparation time for downstream ML tasks

Tech: *Python, NLP, Scikit-learn, Pandas, NumPy*

EDUCATION

Master of Computer Applications (MCA) | [Parul University, Vadodara](#)

2023 – Present

- Specialisation: Data Science, Machine Learning, and Web Development

Bachelor of Computer Applications (BCA) | [KSCPSC, Amreli](#)

Expected 2025

- Core focus on software engineering, database management, and programming fundamentals

CERTIFICATIONS & QUALIFICATIONS

Machine Learning & AI Practitioner — Hands-on experience with real-world ML workflows

Domestic Data Entry Operator (SSC/Q2212) — Government Certified National Skill Qualification

KEY ACHIEVEMENTS

- Reduced manual data processing time by 40% through workflow automation at HR Supply and Service
- Maintained 99.8% accuracy across 5,000+ employee records with zero data breach incidents over 12 months
- Improved e-commerce platform functionality by 98% through an AI-powered product recommendation and search engine
- Built and deployed a School Management System that eliminated paper-based administrative processes for multi-department operations
- Currently developing a production-grade ML data pipeline with end-to-end NLP classification capabilities

ADDITIONAL INFORMATION

Languages: English, Hindi, Gujarati | **Location:** Vadodara, India | **Availability:** Immediate — open to full-time, internship, and contract roles
